

VAD ACTION Flight Plan

This ACTION Flight Plan is to serve as a guide for care providers to assist in the communication of a patient's initial level of illness and to develop patient-specific goals for progressing clinical care. Every child is different.

Patient's Name: _____ ACTION ID: _____

Cardiac Diagnosis: _____ Admit Date: _____

Type of VAD Implanted: _____ VAD Implant Date: _____

Level of Sickness at Time of Implant: (INTERMACS) _____

	Pre-Implant	Post Implant	
Airway	Risk Factor for delayed extubation: Y N • Intubated: Y N <i>If Yes, duration:</i> _____ • Paralytics: Y N • Lung Disease: Y N • Other history:	Extubation Target POD _____ Actual POD _____	
Hemodynamics	Right Heart Dysfunction: <i>Mild Moderate Severe None N/A</i> ECMO: Y N Dialysis/CRRT: Y N Other history:	Discontinuation of all IV inotropes or IV anti-HTN Drugs Target POD _____ Actual POD _____ Other:	
Nutrition & Rehabilitation	Tolerating Enteral Nutrition: Y N Ambulatory: Y N N/A Other history:	Initiation of Feeds Target POD _____ Actual POD _____	Ambulating: N/A <i>(or age appropriate movement)</i> Target POD _____ Actual POD _____
Discharge Timeline	Barriers to discharge: N/A <i>List all that apply:</i>	ICU → Floor N/A Target POD _____ Actual POD _____	Floor → Discharge N/A Target POD _____ Actual POD _____
Clinical Status at time of Transplant Listing	Listed for transplant prior to implant: Y N N/A <i>If Yes, date of listing:</i> _____ <i>If Yes, was patient inactivated for implant:</i> Y N	At the time of listing or reactivation post implant, <u>OR</u> at time of transplant if not inactivated, check all that apply: Initiation of feeds Ambulating <i>(or age appropriate movement)</i> Extubated Off Inotropes N/A, patient destination therapy N/A, patient discharged without activation	
			Date of reactivation or listing _____

Scan QR code below only once, when patient has met option A, C, or T. (This will complete data entry for this patient.)

A Activation on Transplant List
(first time listed, or when reactivated after VAD)

OR

C Completion of hospital course and discharge
(patient discharged without reactivation or transplant)

OR

T Transplant occurred
(patient never inactivated)
